U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

SUBJECT: Consultation Request on the Environmental Assessment for the Request by
Envirocare of Utah to Revise Methods to Control Dust on Facility Haul Roads

Dear Mr. Gillen:

The Utah Division of Radiation Control (DRC) has reviewed your draft environmental assessment submitted under cover letter dated October 8, 2002. The document approves a change in dust control methods for the haul roads at the Envirocare of Utah, Clive facility. Based on our review of State of Utah air quality regulations and the DRC Radioactive Material License for the facility, your decision to approve the alternative dust control methods will not result in a conflict with current State requirements.

Thank you for your seeking our input in this matter.

UTAH RADIATION CONTROL BOARD

William J. Sinclair, Executive Secretary
